REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art did not teach or suggest a device for pressurizing fluid as claimed by the applicant, specifically a device comprising a closure member coupled to a widened portion of a hollow piston, a valve member located in the closure member, a stop means for limiting axial movement of the valve member and a sealing surface located in the closure member for sealing the inlet end of the valve member, together in combination with the other claimed features of applicant's invention. Note the examiner considers the stop means for limiting movement of the valve member to be disclosed and defined on page 8, lines 12-16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
